# Cape Cod & Islands Developmental Disability Information & Referral Services

Adult Family Care is a residential support available to individuals who are Medicaid eligible and meet criteria related to daily living needs. There are two ranges of support needs that would provide different levels of reimbursement to a host caregiver. Individuals meeting criteria for AFC Tier I support must have a need in at least one area of daily living. Activities of Daily Living (ADL's) include but are not limited to: bathing, grooming, dressing, toileting, mobility, range of motion, and taking medications. To qualify for AFC Tier II supports, a person must have at least 3 ADL needs and require physical assistance, or have 2 ADL needs and also present behavioral challenges. Family members can act as AFC providers unless they are spouses, parents, or guardians.
