

Fact Sheet: Residential Services

Updated (3/08)

The programs offer 24 hour residential supports, although some also provide supports that entail less than round the clock supervision. A typical 24 hour residential program would have a House Manager, who oversees and coordinates all of the home-based supports provided to the resident, as well as Direct Care Staff, who are responsible for much of the day to day assistance an individual might need.

Further oversight and supervision is provided through management processes within the individual provider agencies. The goal of all residential support services is to ensure the health and safety of each individual and provide all supports needed, while at the same time working to foster individual growth and maximum independence.
